

Pet Services Portal User Documentation

Assignment 4

ELEC5742 – Foundations: Internet Software Platforms

Date 01/11/2013

1. Register

User could open the home page, and click the Register on the top of the page and input their personal information in the registration page. After register, user can login to the system.

The screenshot displays a web browser window with the URL `localhost:2421/CustomerAccount/Register`. The page header includes the site name `PetServicePortal.com` and navigation links for `Home`, `About`, `Sign up`, and `Sign in`. A search bar with `Email` and `Password` inputs and a `Sign in` button is also present. The main content area features a `Sign up for FREE` section. On the left, a registration form contains the following fields: `First Name*` (text input), `Last Name*` (text input), `Date of birth` (date picker), `City*` (dropdown menu with `Sydney` selected), `Suburb` (text input), `Address` (text input), `Description` (text area with placeholder `Tell us about yourself`), `Email*` (text input), `Password*` (text input), `Password Confirmation*` (text input), and `Phone No` (text input). On the right, under the heading `Or Sign Up with`, there are four social media login buttons: `Facebook`, `Twitter`, `LinkedIn`, and `Google`.

Figure 1. Register Page

2. Login

The user needs to input his/her email and password and then click 'Log in' button on the middle of the page. The user can also login by entering the email and password on the top right of the page. After that the user would be able to navigate to the dashboard.

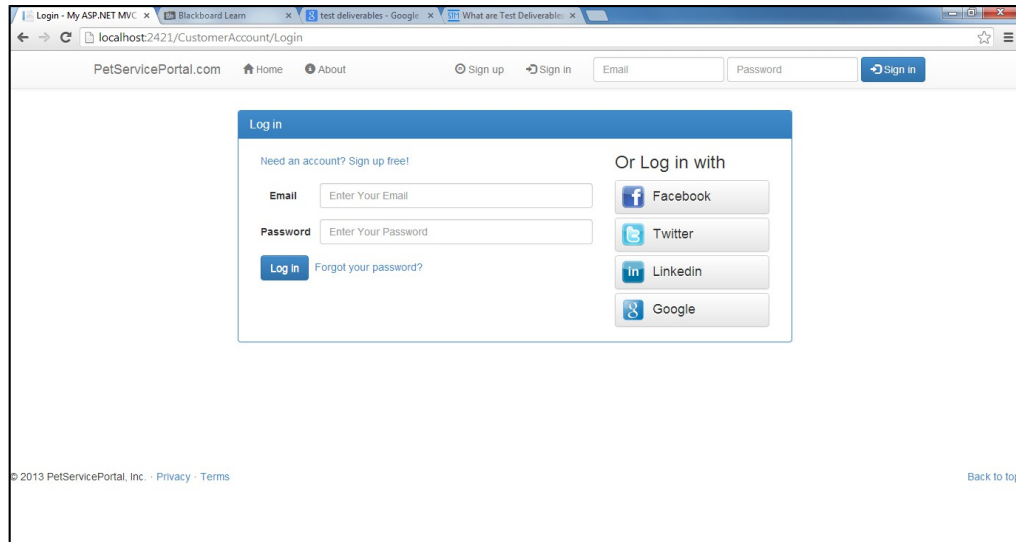

Figure 2. Sign in Page
